

## *Petition of Support for Proposed Dog and Sculpture Park at Site of Former Cupples 7 Building*

I am aware that the St. Louis Downtown Neighborhood Association (DNA) is supporting local residents who desire to see the site of the former Cupples 7 Building reactivated into a dog and sculpture park. I am supportive of that effort.

I believe that activating the site of the former Cupples 7 Building into a dog and sculpture park will be a wonderful addition to the neighborhood.

I feel that such an amenity will add to the viability and livability of the neighborhood.
